

PIN THE FACE ON THE LEPRECHAUN

- STEP 1:** Print out all 6 pages, either in color or black and white on 8.5" x 11" pieces of paper.
- STEP 2:** You will see on the pages that there are cut lines to cut, and areas you don't cut. Those will be used to paste the other pages to.
- STEP 3:** Lay out all the pages to see the whole of the Leprechaun.
- STEP 4:** Cut the upper left page of the Leprechaun first. Cut just the right hand side along the cut line and lay it on top of the upper right hand page of the Leprechaun. Tape along the overlapping area of the pages to make it one piece. (Note: only the upper right page doesn't get cut)
- STEP 5:** Cut the lower right page of the Leprechaun. Cut along the cut line on the top part of the page.
- STEP 6:** Cut the lower left page of the Leprechaun. There are 2 cut lines on this page. Cut along the top and the right hand side.
- STEP 7:** Tape the lower left page to the lower right page. Now tape the bottom 2 pages to the top 2 pages to make your poster. This will make a 17" x 22" poster.
- STEP 8:** Cut out the faces and glasses keeping close to the image area so they will fit in the Leprechaun's face area.
- STEP 9:** Attach your poster to a wall. Attach a piece of tape to the face you have chosen and hold it in your fingers. Use a long sock or bandanna to cover your eyes, or just keep them closed. Have someone spin you around a little and point you in the direction of the poster. Try to place your face on the poster as close to where you think the Leprechaun's face area is. Whoever comes closest to pinning the face on the Leprechaun's face wins!

CUT THIS PIECE OFF ALONG THE DOTTED LINE

LEAVE THIS PIECE TO ATTACH THE BOTTOM PAGES TO

LEAVE THIS PIECE TO ATTACH THE UPPER LEFT PAGE TO

LEAVE THIS PIECE TO ATTACH THE BOTTOM PAGES TO
